dist_dqn function
distributed advantage actor-critic (DA2C), 2nd, 3rd
distributed computing
distributed training
distribution of probabilities
distributional Bellman equation
distributional deep Q-network.
    See Dist-DQN.
distributional Q-learning
    Bellman equation
    comparing probability distributions
    Dist-DQN on simulated data
    implementing Dist-DQN
    probabilities
        distribution in Python
        expectation
        posteriors
        priors
        variance
    to play Atari Freeway
    weaknesses of
done variable, 2nd, 3rd, 4th
dot product, 2nd
double Q-learning
downscale_obs function
DP (dynamic programming)
DPG (deterministic policy gradient)
DQN (deep Q-networks)
    improving stability with target networks
    preventing catastrophic forgetting
    Q function
    Q-learning
        building networks
        discount factor
        Gridworld
        Gridworld game engine
