parallel computations
parallel processing
parameter vector
parametric methods
parametric models, 2nd, 3rd
params dictionary
partial observability
PDF (probability density function)
PE (prediction errors), 2nd, 3rd
planning, model-based
PMF (probability mass function)
policies
policy function
  neural networks as
  optimal policy
  setting up
  using neural networks
    exploration
    stochastic policy gradient
  with value function
policy gradient function, 2nd
policy gradient methods
  OpenAI Gym
    CartPole
    OpenAI Gym API
  policy function using neural networks
    exploration
    neural networks as policy function
    stochastic policy gradient
  policy gradient algorithm
    assigning credit
    defining objectives
    log probabilities
    reinforcing actions
  REINFORCE algorithm
    agents interacting with environment
