Python Gym library
Python, representing probability distribution in
PyTorch
  automatic differentiation
  building models

Q

Q function, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th
q vector
Q-learning, 2nd
  building networks
  discount factor
  double
  Gridworld
  Gridworld game engine
  hyperparameters
  mean field
  neighborhood
  neural networks as Q function
  overview of
  weaknesses of
Q-networks
quantile regression
queries, 2nd

R

random module
random parameter vectors
random variable
rearrange function, 2nd
recombine function
recombining
record array, 2nd
