relational DQN
relational reasoning with attention
attention models
relational reasoning
self-attention models
self-attention for MNIST
Einstein notation
relational modules
tensor contractions
training relational modules
transformed MNIST
training
curriculum learning
maximum entropy learning
relational modules, 2nd
relational reasoning, 2nd
Rel-DQN
ReLU (rectified linear units), 2nd, 3rd, 4th, 5th, 6th, 7th
replay buffers
requires_grad attribute
requires_grad=True argument
reset method
reshape method
resize function
return
rewards, 2nd, 3rd, 4th
future
intrinsic
sparse
RGBA value
RL algorithms, 2nd, 3rd, 4th, 5th
RNNs (recurrent neural networks), 2nd, 3rd, 4th
run_episode function, 2nd

## S
