square function, 2nd
squeeze(...) method
stability
.start() method
state spaces, 2nd, 3rd
state vector
state1_hat tensor
state2_hat tensor
state-action values
state_dict() method
states, 2nd, 3rd, 4th
states array
state-value function
stationary environments
stationary problem
step() method, 2nd, 3rd
stochastic policy gradient
string diagrams, 2nd
subspace Q-learning
Super Mario Bros game
supervised learning

T

tanh function, 2nd
target function
target networks
team_step function
temperature parameter
tensor contractions
tensor order
TensorBoard
TensorFlow
tensors
terminal state
