Table 2.7 Information source checklist for my home digital twin.

Source	Home digital twin	Priority	Effort	Notes
Historical records				
• ❑ Utility bills	Electricity/water bills for baseline	High	Low	Use OCR to extract data from PDFs
• ❑ Maintenance records	Appliance service history & warranties	Low	Low	Scan receipts, create digital maintenance log
Visual documentation				
• ❑ Current photographs	Meter readings, home condition	High	Low	Use a smartphone camera with GPS metadata
• ❑ Aerial/drone imagery	Roof condition, solar panel placement	Low	Medium	Can be used to generate a photorealistic 3D mesh model
Engineering Documents				
• ❑ Building blueprints	Original house plans with room dimensions	High	Medium	Scan and build a 3D mesh model
External system data				
• ❑ Weather services	Local forecast and historical climate data	High	Low	Free APIs available
Spatial representation
