

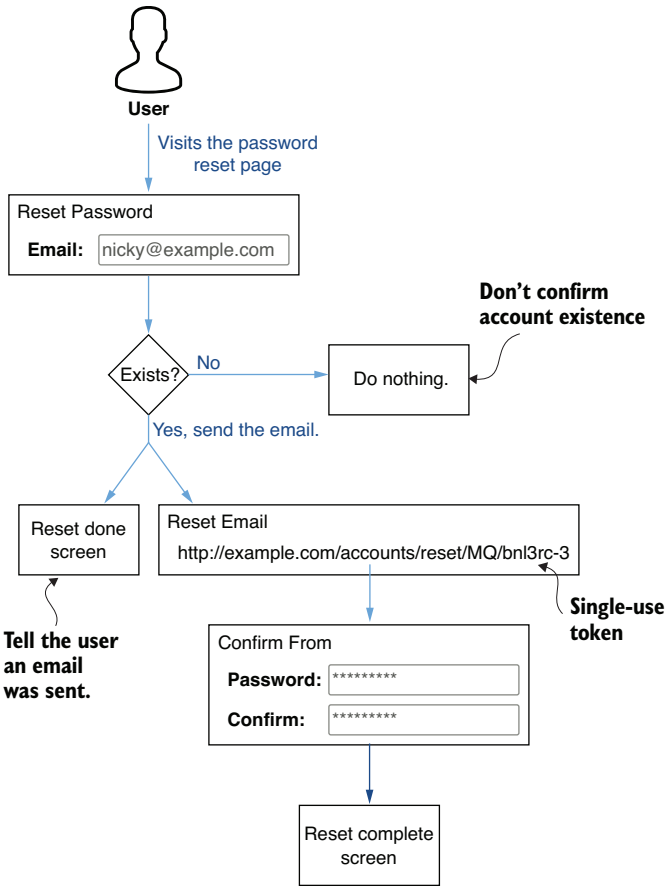

Figure 6.6 Steps involved in a password reset

Let's follow the flow, building each piece along the way. To start, add a password reset link to your login page. The link can be looked up using `password_reset` as a key to the `{% url %}` tag:

```
<!-- RiffMates/templates/registration/login.html -->
...
<br/>
<p>
  <a href="{% url 'password_reset' %}">Lost password?</a>
</p>
```

6.6.1 *Password reset page*

Clicking the reset link takes the user to a view asking for their email address. This view renders the `password_reset_form.html` template. Like the form in the login page, you need `{{ form.as_p }}` to render the `<input>` tags and `{% csrf_token %}` black magic
